[Expression of a murine homologue of the inhibitor of apoptosis protein is related to cell ... - all 7 versions »](#)

K Kobayashi, M Hatano, M Otaki, T Ogasawara, T ... - Proceedings of the National Academy of Sciences, 1999 - National Acad Sciences

The inhibitor of apoptosis (IAP) proteins form a highly conserved gene family that prevents cell death in response to a variety of stimuli. Herein we describe a newly defined murine IAP, designated Tiap, that proved to be a murine ...

[Design, implementation, and evaluation of optimizations in a just-in-time compiler - all 12 versions »](#)

... , T Yasue, M Takeuchi, T Ogasawara, T Suganuma, T ... - Proceedings of the ACM 1999 conference on Java Grande, 1999 - portal.acm.org

The Java language incurs a runtime overhead for exception checks and object accesses without an interior pointer in order to ensure safety. It also requires type inclusion test, dynamic class loading, and dynamic method calls in ...

[A study of exception handling and its dynamic optimization in Java - all 8 versions »](#)

T Ogasawara, H Komatsu, T Nakatani - ACM SIGPLAN Notices, 2001 - portal.acm.org

ABSTRACT Optimizing exception handling is critical for programs that frequently throw exceptions. We observed that there are many such exception-intensive programs in various categories of Java programs. There ...

[Cell cycle-dependent regulation of TIAP/m-surivin expression](#)

... M Hatano, K Kobayashi, T Ogasawara, T Kuriyama, T ... - BBA-Gene Structure and Expression, 2000 - Elsevier

TIAP, a murine homologue of human survivin, is a member of the inhibitor of apoptosis (IAP) family and is specifically expressed at G2/M phase of the cell
